QUICKSILVER

# 2.0 Motorcycle Camper

Presenting the Best Value for Cycle Enthusiasts on the Go!

NO LIMITS

Introducing the QUICKSILVER 2.0 *Motorcycle Camper*, a new ultra-lightweight camper designed to be pulled by motorcycles and small cars - constructed of sturdy aluminum and composites. You'll be amazed at how spacious the tent is in this camper, getting you up and off the ground when camping. You'll appreciate the nice roomy bed

area, as well as a spacious lounge area for eating, playing cards, or just keeping out of the rain. There's a 12V electrical system with an overhead fan/light, as well as an outlet to power a TV or Radio; charge a laptop computer; power an air-mattress pump and more! When in travel mode, the rack on top offers exceptional storage space, while a cooler rack allows you to take your favorite beverages while keeping your sandwiches cold.

Sleek, rear LED tail lights will last for years and provide increased safety.

All-Aluminum Construction

**Weekends Just Got a Lot More Fun!!**
