BY LIVIN' LITE

All-Aluminum, Ultra-Lite, AUTOMOTIVE CAMPERS

*Weekends Just Got A
Lot More Fun!!*

QUICKSILVER™

BY LIVIN' LITE

8.0

The QUICKSILVER line of all-aluminum constructed, ultra light-weight, automotive campers started with our popular eight-foot model (8.0), featuring two spacious queen beds; a roomy dinette that converts into a comfortable bed; a kitchen base with loads of storage; and a convenient storage compartment/TV stand that can also house an optional air conditioner! The QUICKSILVER was designed with today's young families in mind - especially those with children who drive fuel-efficient cars and mini-vans. Unlike traditional recreational vehicles, the QUICKSILVER is light enough to be towed without having to purchase an expensive truck or SUV! The affordable price of the QUICKSILVER allows families to get away to enjoy the great outdoors and the RV lifestyle while staying within their budget.

Because the founders and owners of LIVIN LITE Recreational Vehicles are campers themselves, they knew all about the need for a back to the basics, no-frills tent camper that would provide a great place to sleep while getting away with their family and enjoying their local campground or the National Park system. QUICKSILVER offers plenty of room for preparing meals or playing games, as well as an abundance of storage space. Our campers are also unbelievably easy to tow and set up. Each QUICKSILVER comes with electrical hook-ups and easy zip-down window shades and screens. Available options include a portable heater, a portable gas range, plug-in lights and fans, privacy curtains, awnings and more - everything you need to maximize your camping experience.

10.0

WHY QUICKSILVER?

The designers of the QUICKSILVER automotive camper believe that the RV lifestyle should be available to everyone regardless of age or income. A full half of society drives fuel-efficient cars or mini-vans and the QUICKSILVER is the only camper in its class able to sleep six people comfortably! If you've been looking for an affordable way to spend more quality time with your family, maybe its time you considered QUICKSILVER automotive campers!

"When I was a kid, our family pulled a 'pop-up' tent camper with our station wagon and we went all around the country visiting KOA Campgrounds, seeing Ruby Falls and just creating great memories that would last a lifetime. When I looked around at today's generation of 'pop-ups', I saw heavy, expensive units - but nothing that could be towed by a car or station wagon. That's when we decided to build our own tent camper - that would be both affordable and able to be towed by most cars and mini-vans. Do our units have all the extra frills of the expensive units? No. But that's not what camping is all about. My wife and I take our kids to some great campgrounds with all kinds of activities, lakes, pools, miniature golf courses, etc. - and yes, nice shower and rest

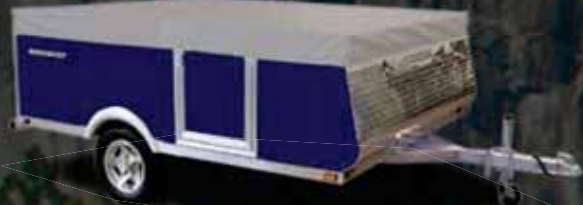

room facilities. Camping for us is about having a great time in the outdoors. It's about sitting around the campfire and making smores. Most importantly, it's about quality time spent with our family. We designed the QUICKSILVER to provide everything a family needs to experience the camping lifestyle for themselves and we constructed it to last a generation - not out of wood that rots, or steel that rusts, but out of all aluminum and composites so you will be able to pass it on to your kids and grandkids."

-Scott Tuttle, Founder of LIVIN LITE

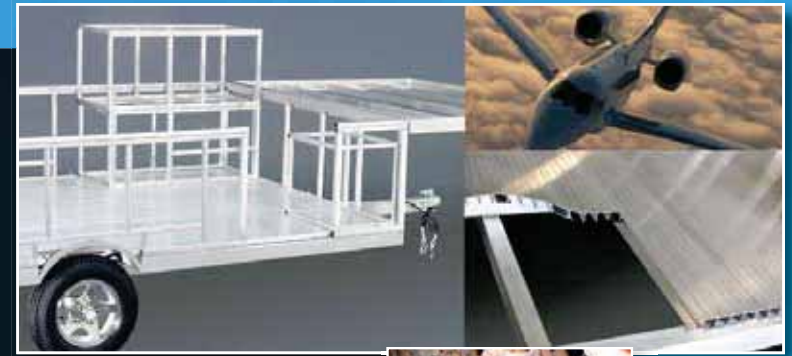

While other tent campers feature only white exteriors, QUICKSILVER offers a number of exciting exterior colors, highlighted by diamond-plated aluminum fronts and trim. The sporty look of the QUICKSILVER goes great with today's exciting automotive designs and colors.

THIS 2-DOOR COUPE HAS OVER 24,000 MILES PULLING OUR 10.0!

QUICKSILVER's extremely light-weight and durable, all-aluminum and composite construction is void of even a splinter of wood! Modeled after the lightweight aluminum structure made popular in the aerospace industry, the QUICKSILVER features lightweight aluminum construction throughout, including the tongue-and-groove aluminum flooring. Unlike traditional tent campers that are fully constructed of plywood and pine (which can rot out in just a few short camping seasons, the QUICKSILVER is made to stand the test of time!

**NO WOOD!
NO ROT!**

The dinette bases in the QUICKSILVER are constructed of roto-cast ABS which is both lightweight and waterproof - allowing the bases to be easily removed from the unit - or to serve as coolers! The seat cushions are constructed out of marine-grade vinyl, making them both durable and weather-proof.

REMOVABLE DINETTE - WEATHER PROOF!

QUICKSILVER[™] BY LIVIN' LITE

6.0

LOADS OF FUN IN A COMPACT DESIGN!

The QUICKSILVER 6.0 was designed in response to the demand for an even lighter, more easily towed tent camper that can be towed by the smallest of cars and even some larger motorcycles! Unlike some campers in this market and weight segment that can only sleep two people (presumably in the fetal position..) this incredibly light camper comfortably sleeps four, while also offering an L-shaped dinette for meals and games along with a storage compartment/TV stand. Our kitchen base can replace the dinette as an option (model 6.1).

QUICKSILVER™

BY LIVIN' LITE

Truck Camper

Great for hunters, weekend warriors and racers alike, this QUICKSILVER model is the next generation of LIVIN LITE design - offering the first truly affordable truck camper! Based on the innovative concept of other QUICKSILVER products, the truck camper offers sleeping space for four, including a dinette that converts to a bed, along with storage cabinet/TV stands. One of the great features of the QUICKSILVER truck camper is that when it is folded down, you can still utilize the rear-view mirror in your truck while driving! Another LIVIN LITE first!

2.0

Towable by Motorcycles and ATVs!

Whether you are an avid motorcyclist, or enjoy backwoods ATVing - the QUICKSILVER 2.0 is your best choice for ultra lightweight camping! This compact unit opens up to a 14' tent which not only offers a sleeping area, but a living area as well. 12V electrical outlets allow you to plug in lighting, as well charge your laptop or cell phone.

ATV Owners and Outdoor Enthusiasts can choose our optional CAMOUFLAGE Package!

The QUICKSILVER 2.0 is one of the Most Spacious "little" campers you will ever find, with plenty of room to relax, eat or play cards. The electrical wiring is standard - something rarely seen in these models!

SUT's

Sport Utility Trailers - Take Your Toys With You!

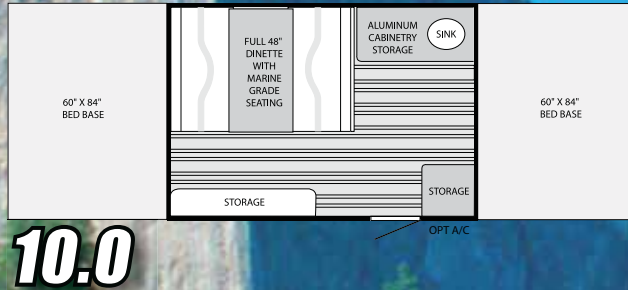

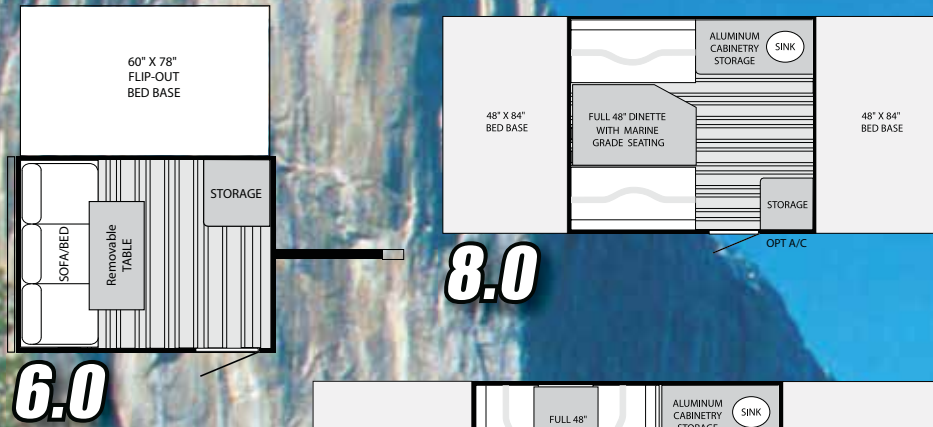

With more and more families choosing to take their "toys" with them on the road - QUICKSILVER has a lightweight model just for you! The 18SUT features our 8.0 camper design turned sideways, which sleeps six, combined with a front deck (9'-6" x 8') with optional aluminum decking and a removable ramp.
